1-1 minutes

SATELLITE BEACH -- Brevard firefighters, utility workers and volunteers rescued 54 turtle hatchlings that veered from their beach nest toward State Road A1A Friday. The rescue team, organized by the Sea Turtle Preservation Society, found turtles in storm drains, swimming pools and other areas along a quarter mile stretch of road. About 20 were killed on A1A when they were crushed by cars. Hatchlings can become confused by artificial light.
